

Plumbing and Fire Industry Awards 2018

Celebrating individuals and companies in Victoria who significantly contribute to our industry.

On 1 September, the Plumbing, Fire Protection and Hydraulic industries will come together to celebrate industry excellence at the 2018 Plumbing and Fire Industry Awards (PFIA) event.

Industry stakeholders, families and friends from across Victoria will come together to celebrate exceptional contributions within the industry. The aim of presenting 14 prestigious awards is to publicly acknowledge outstanding achievements across a range of disciplines and industries. The PFIA's recognise a range of areas with awards for individual excellence, apprentice awards and company/project awards.

Anyone interested in nominating themselves, their company or an exceptional colleague should visit: www.plumbingfireawards.com.au and complete a nomination form now.

The event is hosted by the Plumbing and Pipes Trades Employees Union, Plumbing Industry Climate Action Centre, Master Plumbers, National Fire Industry Association and the Association of Hydraulic Services Consultants Australia.

The evening will kick off at 6pm at the Sofitel Melbourne on Collins. The evening includes pre-dinner drinks, three-course dinner, award presentations and live entertainment!

Last year, over 500 people joined us for the 2017 Plumbing and Fire Industry Awards night. We look forward to an even bigger event in 2018!
